The Student Experience Survey (SES) is an annual national survey, conducted by the Australian Government, of first-year and later-year undergraduate and postgraduate students to improve their course experience and outcomes. Based on students’ feedback in 2021 and 2022, Macquarie University has further enhanced its teaching and learning arrangements, and services to support students’ needs – including online learning skills and support, financial support, emotional wellbeing support and regular communications.

We listened to your feedback and responded with the following initiatives:

- Continued to support students and graduates to find paid employment, with 7400+ students and 800+ graduates recruited through Macquarie Student Employment.
- Increased food assistance and financial support to help students with basic living costs.
- Recognised the amazing achievements of students and the dedication of Macquarie staff and industry partners in PACE work integrated learning, resulting in a record 43 PACE prizes awarded in 2022.
- Increased skill development and learning resources.
- Launched new initiatives – such as the Jobs Happy Hour and the Engineering Student Employability Conference – to enhance the ways in which you can engage with industry, employers and career coaches.
- Student Wellbeing offered a range of services (in person, online, group, peer and digital) to support your mental health, wellbeing, safety and disability concerns.
- Continued to support you with the iLearn template following student feedback about consistency across iLearn units.
- Provided resources and training for staff to develop inclusive teaching skills and support student learning.
- Launched the GLP Alumni Insights Series – discipline-specific Q&A panel events for GLP graduates who are 5–10 years into their career journey.
- Recognised the amazing achievements of students and the dedication of Macquarie staff and industry partners in PACE work integrated learning, resulting in a record 43 PACE prizes awarded in 2022.
- Launched Learning Connect to give you access to on-campus study and career support.
- Completed the SES.
